

MENTEES

96%

have a better understanding of the STEM ecosystem, relevant skills and careers available, and have extended their professional networks beyond academia.

INTERNSHIPS

90%

of IMNIS mentees are interested in a STEM internship

Today's influencers mentoring tomorrow's leaders in STEM.

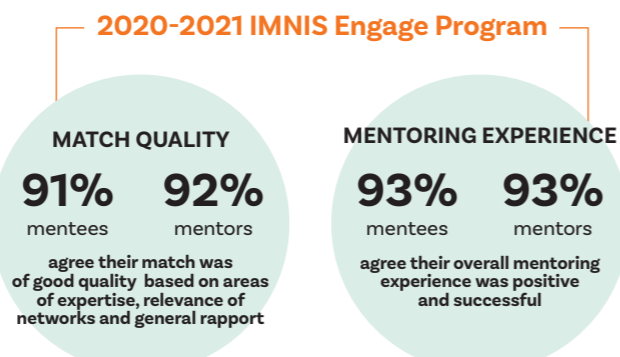

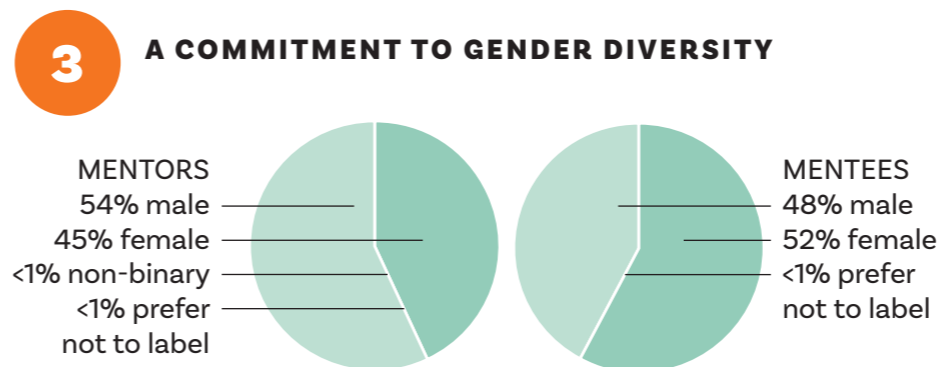

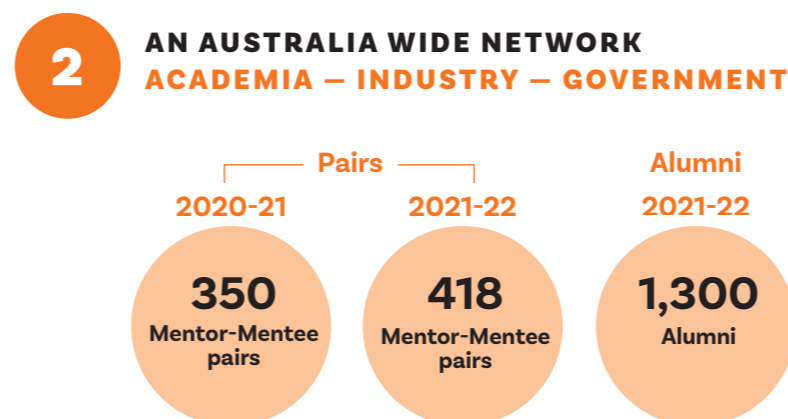

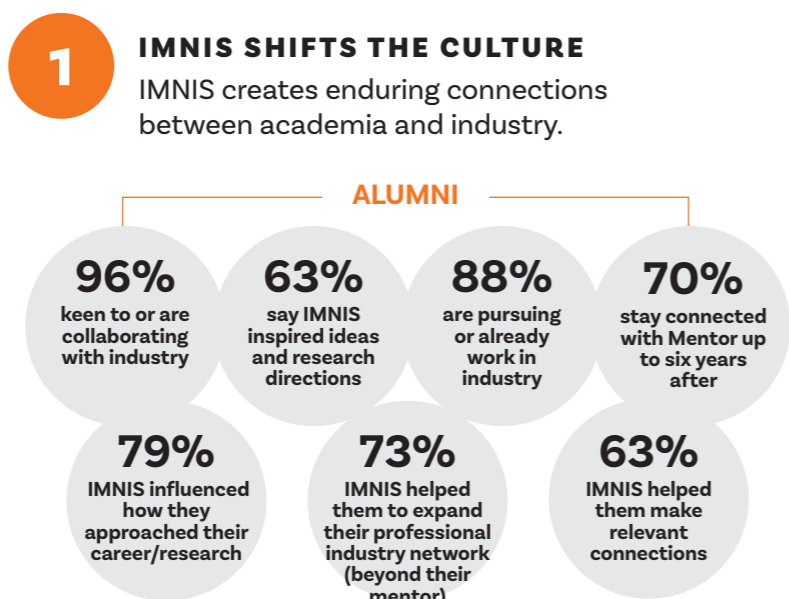

**IMNIS Engage**  
Industry mentoring, professional development and networking. Includes: REDI Connect, IMNIS International, IMNIS Clinical and IMNIS Regional pilot (VIC-NSW).

**IMNIS Catalyst**  
Our inaugural Ambassador program for IMNIS Engage alumni. As part of the REDI initiative with MTPConnect, this program upskills alumni in science communication, media and communications.

LAUNCHING IN 2022

**IMNIS Ignite**  
Internships for IMNIS alumni

**IMNIS Masterclass**  
For IMNIS Mentors & ATSE Fellows

*“Being a part of the IMNIS mentoring program pushed me beyond my academic comfort zone. It exposed me to careers I never knew existed and reaffirmed my confidence in my ability to create impact through research.”*

**IMNIS IS DRIVING WORKFORCE GROWTH IN AUSTRALIA**

The REDI\* initiative selects ten IMNIS mentees doing research in regenerative medicine, gene and cell therapies and digital health to be matched with influential industry leaders to accelerate their career trajectory.

\*Research Exchange & Development in Industry

**IMNIS MENTEES ARE READY FOR INTERNSHIPS**

IMNIS has a cohort of highly-qualified early-career STEM professionals ready to engage, collaborate and do internships beyond academia

The IMNIS national and international industry engagement programs is an initiative of the Australian Academy of Technology and Engineering
